ALBERTO RAMOS

PERSONAL PROFILE

During my bachelor's and master's I developed a special interest in game, app and web development, which I consider to be my main strengths within the field of Computer Science. An ideal job in these areas would make use of my existing skills and teach me new ones.

I consider myself ambitious and hardworking, and always do my best when presented with a challenge. I'm constantly searching for ways to grow and acquire new knowledge, so I can improve my skillset and fulfill my desire for personal and professional success.

In my free time I love to go outside and explore, abroad when possible. Photography has been a passion of mine from an early age, so it's common to see me carrying a camera. Rock climbing is another one of my main interests, and a hobby I took up around two years ago. Since then, I do my best to climb two to three times a week.

WORK EXPERIENCE

Poliempreende '18

2nd place Regional

I designed and developed the graphical interface for an Android mobile application called Coffee Spot. This app had as main goals to facilitate and accelerate the process of customer service, to provide information related with the different products of the brand and to show the customers the location of the various stores throughout the city.

EDUCATIONAL HISTORY

MSc in Information Systems and Computer Engineering

Universidade de Lisboa - Instituto Superior Técnico

Sep 2018 - Jan 2021

MSc in Computer Science (Erasmus)

Aalto University

Sep 2019 - Dec 2019

BSc in Information Systems and Computer Engineering

ISCTE-IUL

Sep 2015 - Jun 2018

SKILLS

Main skills

- Game Development: C#, Unity, Blender
- Web Development: JavaScript, HTML, CSS
- App Development: Java, XML, Android Studio
